## Invitation to Tender

---

### **Hawkley Hall High School: Replacement / refurbishment of sports hall floor**

We are currently inviting tenders for the replacement of sports hall flooring at Hawkley Hall High School. The school's currently floor is of Granwood construction, approximately 570m<sup>2</sup>, and is in need of refurbishment and / or replacement.

As part of the tender process, interested parties should be prepared to:

- Visit site to take accurate measurements of the space and view the condition of the existing flooring
- Submit via the tender process a solution and/or range of solutions to meet our requirements

### **Specification of requirements**

- Provide quotations for installation of a sprung floor or equivalent. This can include option for an overlay system or complete lift and replacement of the existing Granwood system.
- All options must include itemised costs for individual sport line markings, which we can customize in our final decision
- Costs must include any additional accessories (trim etc.)
- Carry out any necessary repairs to the substructure as required to support the proposed solution
- Advise if any modifications to doors are required to accommodate the new flooring system
- Costs must include the delivery of materials to site, disposal of waste, and any other costs relating to the delivery of the project
- Full O&M manual to be provided on the new playing surface, to include details of maintenance, cleaning and warranty.
- Flooring system should be covered by a suitable manufacturer & installation guarantee and this must be detailed in the tender submission.
- Flooring protection – this is a multi-use area which is used for parents' evenings, clubs and other activities in addition to sports. If you advise a specific type of floor protection for non-sport events, please provide details and pricing for this in your submission.
